

RESIDENTIAL

FHP Manufacturing Co., 601 N.W. 65th Court, Ft. Lauderdale, FL 33309

As part of the American Recovery and Reinvestment Act of 2009 (ARRA), the United States Tax Code was revised to expand the existing tax credit available to consumers related to the installation of geothermal heat pumps. As a result, consumers purchasing qualified systems now can take a one-time tax credit equal to 30% of the investment in the geothermal system, including installation costs, without a cap.

As of December 1, 2009, home owners who install ENERGY STAR qualified geothermal heat pumps are eligible for a 30% federal tax credit. New requirements for water-to-air and direct geo-exchange GHP models take effect on January 1, 2011. Even more stringent levels will go into effect for water-to-water and water-to-air models on January 1, 2012. A listing of products manufactured by FHP Manufacturing Co., 601 N.W. 65th Court, Ft. Lauderdale, FL 33309 meeting the new Energy Star requirements is attached.

A qualified system must meet the following requirements:

- Installed after January 1, 2009 and before December 31, 2016¹.
- According to the Internal Revenue Service (IRS) guidance, the Federal tax credit is tied to the Energy Star specification that is in effect at the date of installation.
- Installed in residence (not limited to primary residence)².
- For purposes of Energy Star qualification, geothermal heat pumps include the following: open loop, closed loop, and DGX and are powered by a single phase current.

Please complete the information below, and keep this certificate for your records. We advise consulting with your tax advisor for further information on the eligibility of your installation for the tax credit.

Installing Contractor Information

Name: _____

Address: _____

Phone: _____

Installation Date: _____

* Consult efficiencies, ARI reference and Energy Star ratings by model number, starting on page 2.

Geothermal Closed Loop System

Water-to-Air 16.1 EER and 3.5 COP or greater*

Water-to-Water 15.1 EER and 3.0 COP or greater*

Model Number: _____

Geothermal Open Loop System

Water-to-Air 18.2 EER and 3.8 COP or greater*

Water-to-Water 19.1 EER and 3.4 COP or greater*

Model Number: _____

ARI Reference #: _____

¹ Products installed between January 1, 2008 and December 31, 2008 are eligible for a 30% tax credit but such credit would be capped at \$2000.00.

² Not applicable to Rental properties and the property must be in the US.

Under penalty of perjury, I declare that I have examined this certification statement and believe the facts presented are true, correct, and complete.
